KNOWLE & DORRIDGE CC

“The introduction of NV Play Live Streaming for PCS Pro in our home matches has been a huge benefit to us as a cricket club. We have acquired new sponsors and generated greater revenues from current sponsors whilst growing our online presence as a further result of the exposure our live streams have created. We are heavily reliant on sponsorship and the broadcast style features of NV Play has opened new doors for us.”

EALING CC

“The equipment is fantastic and easy to use, it all links up with Play-Cricket and our scorer already uses PCS Pro to score. This year we will be showing the Live Stream on the TV in the pavilion and then putting together a highlights reel which is easy to do via NV Play’s Video Package Manager. Having a system that works both online and offline is a great solution for us as a club.”
